do you want to Be a more Responsible Dog Owner ?

Follow these tips to be a more responsible dog owner, and to have a happier, healthier dog.

Get your dog spayed or neutered. Did you know that spayed/neutered pets live longer and healthier lives? The best age to spay/neuter a dog is around 5 to 6 months old, at the beginning of puberty. Talk to your vet about the right time for your dog.

Schedule regular check-ups with your veterinarian. Your dog may not show you that he appreciates trips to the vet...but he really does appreciate staying healthy!

Provide proper identification. Your dog should always wear an I.D. tag with your name, address and phone number. Getting your dog micro chipped adds another layer of permanent protection.

Continue on page 3.

Pot of Gold Contest

Beginning March, a jar of cookies will be placed on our front desk. Parents will have a chance to guess the number of cookies in the cookie jar. On Thursday, March 17th, the camper that attends daycare and has the closest guess without going over, will win the entire jar. Campers must have their guesses in before St. Patrick's Day and must attend daycare on that day to be eligible to win. We know it's not really gold, but to our doggie friends, it's even better! Also, don't forget to dress Fido in something green for the free manicure.

For any out of state parents, enjoy our new...

Provide proper identification. Your dog should always wear an I.D. tag with your name, address and phone number. Getting your dog micro chipped adds another layer of permanent protection.

Make time for your dog. Dogs want and need your attention and affection regularly, not just when it's convenient for you. It doesn't have to be all day, every day, but do make some time daily to pet, play with, walk, or do other activities with your dog that are fun for both of you.

Give your dog regular exercise appropriate for his breed, age, size, and other unique characteristics. Exercise isn't just beneficial for your dog's physical health—his behavior is at stake too!

Provide shelter for your dog that he/she finds comfortable. A crate or doghouse may seem cramped or cruel to a human, but most dogs actually love a quiet, enclosed space where they can rest and sleep, for limited amounts of time. It should be large enough for your dog to sit, stand, turn around comfortably, and itch that pesky spot behind his ear.

Travel safely. Keep your dog safe in the car by using a crate or by attaching him to a seat belt with a harness. We may look cute riding in the back of a pickup truck or with heads hanging out of the car window, but it's not so fun when you suddenly slam on your brakes or flying debris gets into his eyes.

Watch for temperature extremes. Many dogs love tagging along for car trips, but never leave your dog in the car if it's extremely hot or cold outside. Your car is like an oven under the blazing sun and a freezer in the bitter cold.

Bark Buster, "How Can You Be a More Responsible Dog Owner?". February 9, 2011.

Dog Friendly Restaurants

Sit outside with your pooch and enjoy breakfast, lunch or dinner at some of Ft. Laud.'s local hot spots!
